

March 23, 2006

...everything is great here! The day it snowed was the day I think she and Jackson bonded. They romped and played in the snow all day. I got nothing done due to watching and laughing at them. She goes in her kennel at night and is ready to play by morning. The first couple of days we had her, it was really nice out and she was out for walks with us all over our property... She follows me all over the house. If I move 2 feet, she moves 2 feet. [We] absolutely love this girl. We could not have found a better fit!!! Thank you all for everything you did for us, and all that you do for the 4 legged friends in need. You're the best!!!
