Bonnie is getting BIG these days. Nearly 40 lbs. now. She has a great disposition and is very well adjusted. Here is a pic of her napping in our kitchen. She's very happy and a joy to have around the house!

She is gaining about 2 pounds per week. What a sweet disposition! We just came back from her first road trip.... She is also fully housebroken. And her ears are now completely pointed up. She's a very cute and happy.
