Dallas loves to swim very much and be out on the boat on the lake with his brother, Tigger. He also loves to play fetch in the back yard and always sleeps with his moosey-moose stuffed toy. Dallas is so smart and sweet and is a big cuddler.

Hi! I'm so glad to let you know that everything is going great! Dallas is adjusting so well and just loves everyone in our family. He and Tigger are just starting to really play together and are having so much fun. Dallas is also getting over being food aggressive. We can give him food and he so frequently walks away from it or if the cats or Tigger get some of it, he could care less.

Dallas is also soooo smart. We learned that he already knows how to sit, stay, shake, and speak, all on command!! My dad is convinced that he was a family's puppy that got lost, or even a police dog in training that got lost!

Either way, we couldn't be happier. My dad keeps saying how surprised he is at how well mannered Dallas is. He is just such a sweetie, and we just love him. Dallas is very happy here and we love him so much and he is already a part of our family :
