He's now known as " King Lars the Wonder Dog". King now has a playmate who comes over to play once a week. My daughter recently got a six month old pup (St. Bernard mix) from animal control in Indianapolis. They get along great and wear each other out.

Lars is extremely food motivated. If we don't put it away, he'll find it and eat it. He is absolutely a great dog. The tennis ball is his favorite toy, and fetch is his favorite game. It's almost impossible to wear him out!
