

### 2007

Lieba has lost her family due to divorce. She is [again at our rescue](#) awaiting her forever home.

Lieba has adjusted well to our home and our three small children. She fits right in as one of the gang! She is a joy to be around and is always eager to learn new things. She's so smart - she's already broken out of her crate a couple times so we had to get a different latch for it. On Sundays she gets to go to grandma's house with us and play with other dogs and get special treats from grandpa. She gets spoiled right along with the grandkids! Lieba is just wonderful and we love her. We are so appreciative of all the hard work you guys do at the rescue, thank you!!
