

April 2004

We can't believe we've only had Malea for 9 months! We have all grown to love her so much. Of course, she's still the faithful, loyal dog she always was ...but she is so much healthier now. She's gained 20 pounds since she was originally found and her fur has gone from being very wiry to being soo soft and gorgeous. We have so much fun playing ball and keep away with her!
