He is just perfect . Plays with cats and even helps me if they get out . He rounds them up and gets them back in. He knows they don't belong outside. Its almost like he has been here for years. He has adjusted so well. And you have made this family very happy. Central IL GSD rescue is the best in my book. Their dogs are family ready when you take them home. Thank you for letting us adopt a great dog and friend.

May 23, 2007

This is the update on monday. He woke up a little sick so I took him to the vet. She said he just has an upset tummy. Maybe from all the treats we gave him before we took the road trip. He is getting along great. She put him on some meds to calm his tummy and he will be fine.

He decided he wants to play with the cats. They are not ready to play yet. Its funny Rudy is wagging his tail to play. And they are hissing but so far just games . They will get along soon. I can tell. Thank you again for letting us have such a great dog.

I'm sorry you wont be getting rudy back. We just love him.
