

### October 18, 2006

Well, the good news is that Shelby seems to be adjusting fine. She is just a great dog, calm yet fun, very loving, and oh so soft. We are having fun getting to know her. She is already a great addition to our family. She gets invited to snuggle with us on the bed before we go to sleep, greets us when we wake up, and she has also taken to being on "squirrel patrol" in the back yard.
